Photo Etch Golf Scramble Supports The American Pregnancy Association

Company Takes Pride in Giving Back to the Community

FORT WORTH, TX – June 20, 2006 — Photo Etch, a leading aerospace manufacturing company, held its Spring Golf Scramble on April 8th at Tour 18 in Flower Mound, Texas to raise funds for The American Pregnancy Association, a recognized leader of reproductive and pregnancy health and wellness information. Twenty-one teams comprised of Photo Etch's employees, vendors, customers and friends gathered for an afternoon of fun to support a great cause and \$5,000 was raised.

The biggest surprise of the day came when Dale Rostamo, a Lockheed-Martin employee, made a hole-in-one on the 17th hole. As a result, he won an extended cab pick-up valued at \$26,000, which was donated by Friendly Chevrolet of Fort Worth.

According to Dr. Brad Imler, president of the American Pregnancy Association, "The American Pregnancy Association is a nonprofit health organization, so we are extremely grateful for Photo Etch's generosity and support. We will be using the funds to provide free counseling, education and support services to women and families."

Photo Etch holds charity events three times a year, in the Spring, Summer and Fall. The remaining events for 2006 include:

- **June 24th** – Supporting March of Dimes Birth Defects – To be held at The Doral Tesoro near Texas Motor Speedway
- **September 23rd** – Supporting Toys for Tots – To be Held at The Links at Waterchase in Arlington

According to Randy Fry, president and chief executive officer of Photo Etch, "Giving back to the community is part of Photo Etch's culture. We've been holding these golf scrambles for eight years now, and we've donated thousands of dollars to our favorite charitable causes during that time. Our employees take a great deal of pride in organizing and participating in these events."

To participate in future Photo Etch charity golf scrambles, to donate hole-in-one prizes or to sponsor a hole, contact Fred Reagan at fredreagan@photo-etch.com.

About Photo Etch

Photo Etch designs and manufactures displays and control panels used for military and commercial airborne and ground communications, as well as navigation systems. The company also manufactures flight simulation and training components. One of Photo Etch's specialties is night vision technology for airborne military operations. Photo Etch's client base includes major defense contractors like Boeing, Lockheed-Martin and Grumman Aerospace, as well as U.S. Department of Defense agencies like the U.S. Air Force and U.S. Navy. Founded in 1960, the aerospace company manufactures its products in accordance with ISO 9001 and SAE AS9100 quality standards. The firm operates from a 50,000-square-foot facility in Fort Worth, Texas. For more information, visit www.photo-etch.com.
